**Flag:** Flag for follow up

Unfortunate timing. My comments are only on top of AD and NB.

Here are my edits to the redline rule. I am not commenting on the response to comments document.

Thanks all. (Note document name includes NB\_ADD so you know who looked at it thus far).

Huge thanks to the team! While I have some comments, I do think this is in very good shape and they have done a nice job.

Attached are my comments on:  
-the response to comments  
- the preamble (using the compare version that was provided).

Please let me know if there are questions. Hopefully others reviewing electronically can add comments to this version to make it easier for the team.

The asbestos SNUR package is attached for IO review. OGC comments are also below. Hard copies will be in your binder and folders.

Thanks,  
Kaitlin

Hello,

Please find attached the Asbestos SNUR package. The final rule has been reviewed by OGC and their overarching comments are below:

Attached and below, OGC has some final comments on the draft final SNUR for asbestos. These comments are at the Deputy General Counsel level (except for the blue update). Please keep us in the loop as this moves into review by the OCSPPI IO, both on timing and issues. We're here to discuss any of the outstanding or flagged issues or any new ones as this keeps moving through the process.
